Communication

Back in the day people didn't have mobile phones nor social media

Entertainment

Entertainment has changed from physical means of storage like CD and VHS to online services like youtube

Transportation

Nowadays people must use seatbelts while driving a car.

Education

Education has moved from paper books to e-books.

Food

Earlier food wasn't as versatile as new

Government

Government officials have less power (kekicanen)

Health and medicine

It has improved a lot, for example new medicines have been invented.

Safety

Nowadays it's more safe but it doesn't feel like it because of the informations we get

Fashion

Old fashion trends are coming back, for example fanny packs

Social security

These days there is more bureaucracy.

Crime

Nowadays people do more crimes online

Housing

Urbanization has spread further, and appartments have decreased in size.

Communication

No internet, it was harder to get in touch with others.

Entertainment

No Netflix, HBO etc.

Transportation

It hasn't changed much

Education

No abusive teaching methods anymore, more techonology used to teach

Food

More variety to choose from

Government

No comment

Health and medicine

More advanced technology

Safety

It was more safe

Fashion

Is always changing

Social security

Crime

Less organised crime.

Housing

Renting places wasn't as usual as nowadays. People live in smaller houses and apartments.

Communication

Communication didn't happen digitally.

Entertainment

Then radio and TV were popular entertainment
There were no streaming services like Netflix.

Transportation

Education

The wealth of the families increased so more and more parents
wanted their children to receive a better education

Food

Access to junk food was way harder than it is now.
There weren't many exotic fruit/vegetables in
the grocery stores back in
the day.

Government

Urho Kekkonen was the president of Finland.

Health and medicine

Safety

Traffic safety has improved significantly since the early
1970s when more than 1000 people died in road traffic every year.

Fashion

Clothes were more colorful.

Social security

Crime

Housing

Communication
everybody has telephones, Communication is done via internet

Entertainment
We can watch movies and TV shows with our devices. We have streaming services now.

Transportation
Flying's become more common. Cars have improved greatly. Much less costly.
Info from the internet more available.

Education
Education happens more and more electronically. Lots of workspaces online.
Easy to share essays or homework over the internet.

Food
Gmo food makes it possible to eat more at the same cost. Vegan foods become
more common even though people have slightly more money to spend.

Government
You can advertise different policies easily in the internet.
Controversial people have more visibility.

Health and medicine
Medicine and vaxxines are more common and more effective.
Public healthcare systems.

Safety
Technology has aided protective services but it has also brought
us cyber terrorists and to some degree spying.

Fashion
Fashion changes all the time, but nowadays media has a lot of
influence over trends.

Social security
You are more visible nowadays via internet.

Crime
Crime has found it's way online, and for example, you can buy
drugs online. Hate crimes and cyber bullying.

Housing
I'd say its more ecological and there are more devices which
help you daily.

Communication

It was easier to talk to stranger face to face. Nowadays it's easier to send messages.

Entertainment

Before seeing your friends was close to entertainment. There were no unnessessary tv-shows.

Transportation

Transportation was much more limited for example airplanes were used rarely.

Education

Nowadays everything is electronic. There was silence but it wasn't "dead" silence.

Food

There was less alternatives of food in the market. There was less food. The food was appreciated differently.

Government

The president had more influence

Health and medicine

There was no medication for some diseases. Medication has mostly been replaced by diets. Hygieny has improved.

Safety

In traffic the safety has improved a lot. Society has became more restless.

Fashion

Nowadays people have more clothes and they are more affortable.

Social security

Nowadays it's easier to get access to your information. There wasn't internet collecting our data.

Crime

There is less crime but more assaults.

cancer can be found earlier and treated better, computers etc. help many bacteries are antibiot immune

Safety

electric security systems, cars have airbags & seat belts and abs brakes

Fashion

new trends, always changing

Social security

Finland has built a great wellfare-system (KeLa)

Crime

des crime, but electronic attacs like hacking and tracking has become more populair big companys have suspicious motives to collect large amounts of personal information

Housing

people live in a flats, bigger houses, smaller yards, moore rooms per living area

Communication

Trhough modern technology it has become far easier.

Entertainment

~~Eastest~~ ~~Entertainment~~ is much easilr to acsess an has become ar simpler.

Transportation

Again more accessible and effective

Education

~~A is~~ is more requited to make a living.

Food

Is more processed and ~~often~~ almost always ~~store~~ store bought.

Government

Is far more present in our lives, ~~and have less power~~ ~~in their hands~~ and have become more sophisticated.

Health and medicine

Is more advanced,

Safety

More indirect threats less direct threats.

Fashion

Far more present.

Social security

Crime

~~It has become~~ Has become easier to do.

Housing

Is more city based.

Communication

it's easier and better with smart divisions

Entertainment

Netflix, before they have only kāpÿlehmā
(self-made toys)

Transportation

get better

Education

get better. electrytying, more alternatives to study

Food

Fast-food restaurants,

Government

Don't know

Health and medicine

Better doctors and treatments.

Government Hands off aproach

Health and medicine medicine more

Safety

Fashion Practical

Social security

Crime Deperation

Housing Whole family lives in a singular house lots of kids

Future

What kind of neighborhood will you live in when you get older?

What will cities be like 50 years from now? Think about how these will change (make two or three predictions for each):

Transportation way more electric cars

Pollution pollution charts will explode

Crime terrorist robots

Advertising via internet mainly

Buildings will be higher

Work there will be problems due to increasing amount of robots

Shopping clothes will probably be a little more expensive

Nightlife better clubs

When will you graduate?

How will you use English in the future?

Will humans ever meet aliens? What will the meeting be like?

What kind of sci-fi movie will the future be like? (The Matrix, Terminator, i-Robot, Minority Report etc.)

Do you think houses will be more environmentally friendly in the future?

Where will we get our energy when we run out of oil?

How will India and China affect the environment in the future?

What will happen if we keep polluting the environment?

Future

What kind of neighborhood will you live in when you get older?

What will cities be like 50 years from now? Think about how these will change (make two or three predictions for each):

Transportation
- faster   - electricity
- easier   - self driving cars
- underground

Pollution
- no information :)

Crime
- less crimes

Advertising
- everywhere
- targeted

Buildings
- higher   - more electrical
- bigger
- modern

Work
- more unemployment
- more entrepreneurs
- wagegap

Shopping
- online
-

Nightlife
- legal drugs
- less alcohol
