14. Fill in according to the clues.

- If you were to see some of the smartest animals in the world go about their daily routines, you couldn't help but be amazed at how smart they are.
- Being closely related to human beings, chimpanzees also have the ability to perform complex tasks.
- While we may look very different, chimpanzees and humans have remarkably similar ways of communicating.
- You might have heard a parrot say/saying 'Polly wants a cracker' before, but they are not only capable of repeating human phrases, they also know how to use the conveyed information to solve problems. So repeating human words is just one of their many tricks.

- see, go, be
- be, perform
- look, communicate
- hear, say, repeat, use, solve, repeat
