

Role play

Act out the following situation between a doctor and a patient overcoming a language barrier.

A**The Doctor**

You are a doctor working at a health centre near a holiday resort. A tourist has come to see you. Your English is not very good (neither is the tourist's), so you need to ask the patient to use other words, act, draw or mime to describe what his problems are.

Will you be able to work out what is wrong with the patient?

Role play

Act out the following situation between a doctor and a patient overcoming a language barrier.

B**The patient**

You are abroad on holiday. You have been feeling ill for some time and have made an appointment with the doctor. Describe your symptoms to him/her (E.g. *nuha, pahoinvointi, jatkuva kipu, kuume, yskä, ripuli, vatsa kovalla*).

The doctor doesn't seem to understand you very well and asks you to explain. Your English is not perfect, and neither is his/hers. Use every way you can think of to make him/her understand.

Will the doctor be able to work out what is wrong with you?
