Note:

While these spells might seem handy for a mischievous wizard trying to cheat, remember that **in the *real* world, studying and preparation are the best ways to succeed! Cheating, magical or not, is always a bad idea.** And in Hogwarts, you'd probably get a Howler from your parents if caught!

If you're not ready for an exam, just **FACE THE MUSIC** and retake the exam when you're fully prepared instead of cheating. Don't resort to **The One That Mustn't Be Named** (i.e. Chat GPT) to pull wool over everyone's eyes – least of all your own! – in your studies lest you graduate, but actually don't have your s**t together!
